## THE BAREISS ANIMAL WORLD FOR YOU!

Watch, approach, and sharpen your senses – animals are simply fascinating and are a true gift to us humans. We can learn so much by spending time with them. Did you know that horses are highly attuned to your feelings and can mirror your behaviour? That rabbits are prey animals and can move their ears independently in all directions? Or that in a goat herd, every member has a role, and those who don't follow the rules get into trouble?

Animals meet us without prejudice. How they organise themselves within their groups and communicate without words is something you can observe not only in our petting zoo but also in the fallow deer herd, the beehives at Morlokhof, and at the Forellenhof Buhlbach. Plus, there's now a feeding station at the fish pond in the Forest Park, where you can help feed the fish. The daily ration is carefully measured – once the box is empty, please come back another time.

### THE PETTING ZOO

Three cheeky ponies, playful dwarf goats and a growing family of bunnies, that is the colourful gang of little rascals who are at home at our Bareiss Petting Zoo. They are all very tame and curious but they do also have a mind of their own. And that is a good thing as it tells you very quickly whether they are feeling well or whether they are not happy with something.

You know that you should always be careful when dealing with animals and approach them gently so as to avoid scaring them. It is no secret either that they like to nibble at everything which appears in front of their noses. And they know no limits of their own when eating. Feeding them in-between is not a very good idea. So we will do this together.

Bea, Bibiana and Bless, the classic ponies, seem to be the spitting images of each other at first glance. But when you are here, we will reveal you the secret of how you can tell them apart.

Our bunnies are all little »rascals« and know how to rope others in. When they come closer to you, this shows that they are curious. The best idea is to first allow them to sniff the palm of your hand.

Our West African Dwarf Goats are the smallest breed of goats in the world. Plants grow rather sparsely and the climate is dry in their home countries. In the wilderness, they have to cope with this on their own and that's why they are such undemanding and compact animals.

## THE FALLOW DEER ENCLOSURE

Fallow deer have a sociable character and like being in large herds. However, the stags and females move out in separate groups outside the mating season. They are rather shy and use their eyes, ears and nose to spot any danger in plenty of time. You can tell what mood they are in by their tail: If it is hanging down loosely or wagging a little, everything is fine. If they sense danger, it will be horizontal – and if they are on the run, it will point upwards. When they are running from danger you will see them doing so-called bounce jumps, in which they take off from the ground with all four legs at the same time. They do this to demonstrate their strength in order to drive away any predators.

### THE BAREISS FALLOW DEER ENCLOSURE:

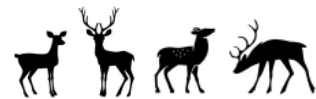

11 full-grown animals with offspring

### ENCLOSURE AREA:

15.000 m<sup>2</sup>

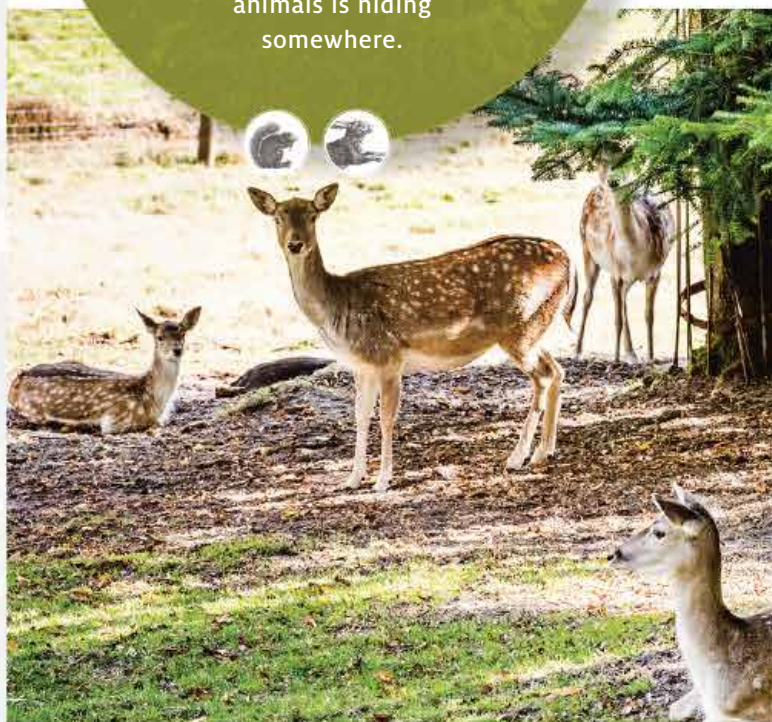

### QUITE CLEVER!

As they can make good use even of a frugal diet, fallow deer are not choosy when it comes to food and will even eat wild scrubs. So our animals are also perfect landscape conservationists and take good care of our hilly terrain. That is quite a clever arrangement nature has devised, isn't it?

## SEEING THE FALLOW DEER FAMILY

In our game enclosure, you can watch fallow deer at close range. This is always an exciting experience, and every time we go there together in a group to count them, one of the animals is hiding somewhere.

## BEEKEEPING

From May to September, you can take a closer look at our bees – and maybe even see them swarming if you're lucky! In a bee colony, each bee has its own special role. The queen is the only fertile female; she goes on a nuptial flight with the drones and lays the eggs. Afterwards she is looked after by an army of perfectly organised workers so that she can concentrate fully on her task. Amongst the workers there are cleaners, nurses, maids, guards, heaters, aerators, scouts, collectors – yes, and even an alarm standby reserve. It's no wonder that beehives are buzzing with activity.

### HUMMING AND BUZZING

The honey you can savour for breakfast comes from our bees living at the Morlokhof. With a little luck, you may even see the queen when you look into the beehive at the display panel.

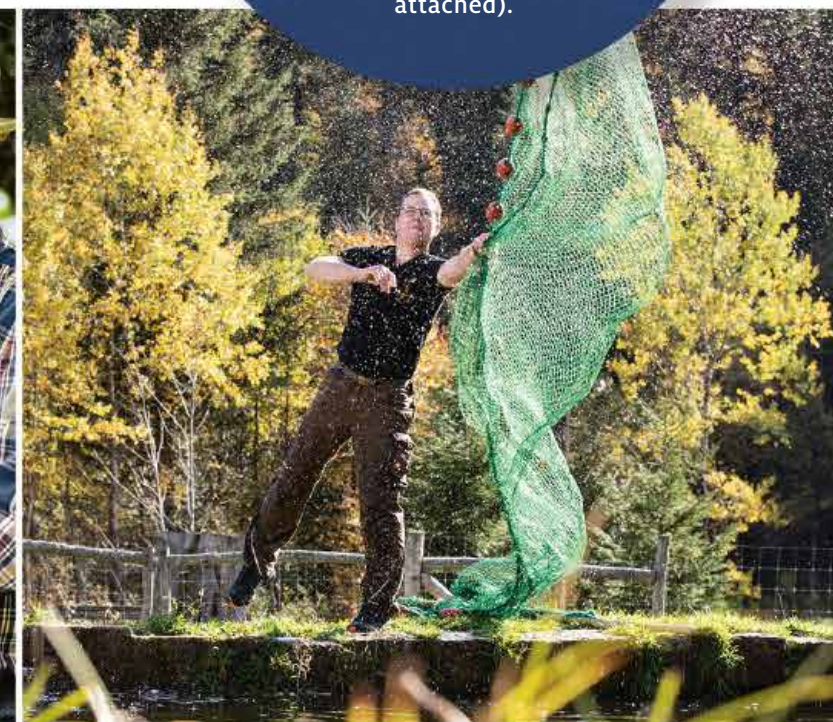

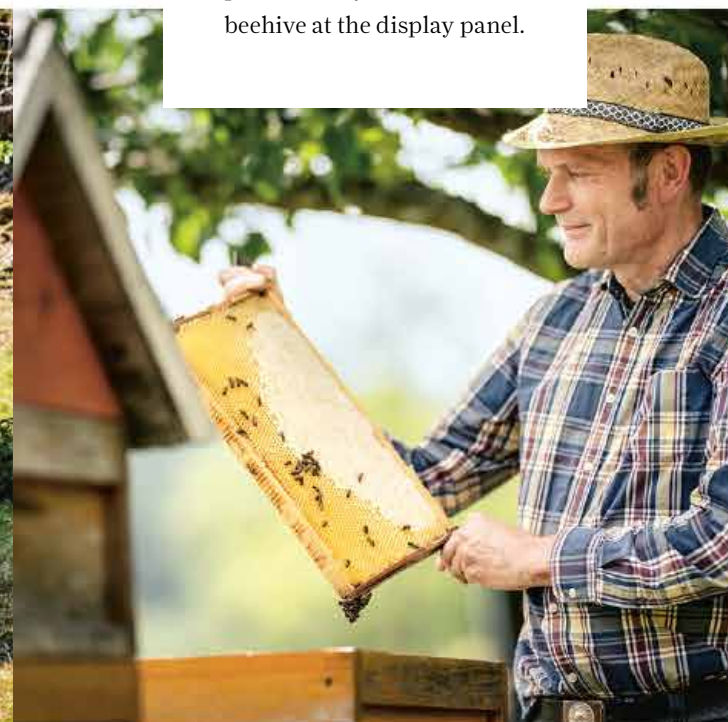

## THE FORELLENHOF

What do fish like? In which environment do they feel most comfortable? How can we make sure that herons don't catch them? In our trout farm, you can find out first-hand what rainbow trout, salmon trout, golden trout and char need in order to flourish. Our fish farmers will take you on a tour of the facilities and show you how the flow channel basin, hatchery, technical building and filter systems work. It's not so much about the fishing as it is about the fish themselves. You can learn how to distinguish between different species, find out where they get their names from and why trout don't like »lazing around«.

## WHAT DO YOU KNOW ABOUT FISH?

Our fish farmers have come up with a great idea to get you hooked. You can take out your Explorer's Diploma with them, and become a junior expert. You should definitely not miss out on this bait (there is no hook or string attached).

## THE BAREISS »REITERHÖFLE«

Muddy boots, your favourite scruffy jumper, and an apple in your pocket – what's that all about? It's the Bareiss Riding Stables! The stars here are, of course, the horses, and you'll love spending time with them. If you're already a horse enthusiast, no explanation is needed. But if you're just starting to fall in love with these incredible animals, our Pony Club is the perfect place for you. Whether you're a beginner or more advanced, there's just so much to learn – through our weekly group programme and riding lessons.

We also go on outings together, including family hacks to the Satteleri hiking lodge or other beautiful spots in the area.

## SPORT AND FUN IN THE WORLD OF BAREISS

Ever ridden a slalom course? Or competed on stilts? Or balanced hands-free on a slackline? Do you like hula hooping? Skipping? Or obstacle courses? The circus wagon on our children's playground is full of exciting things to try out. Here you can show off your skills, agility and coordination, and also your ingenuity.

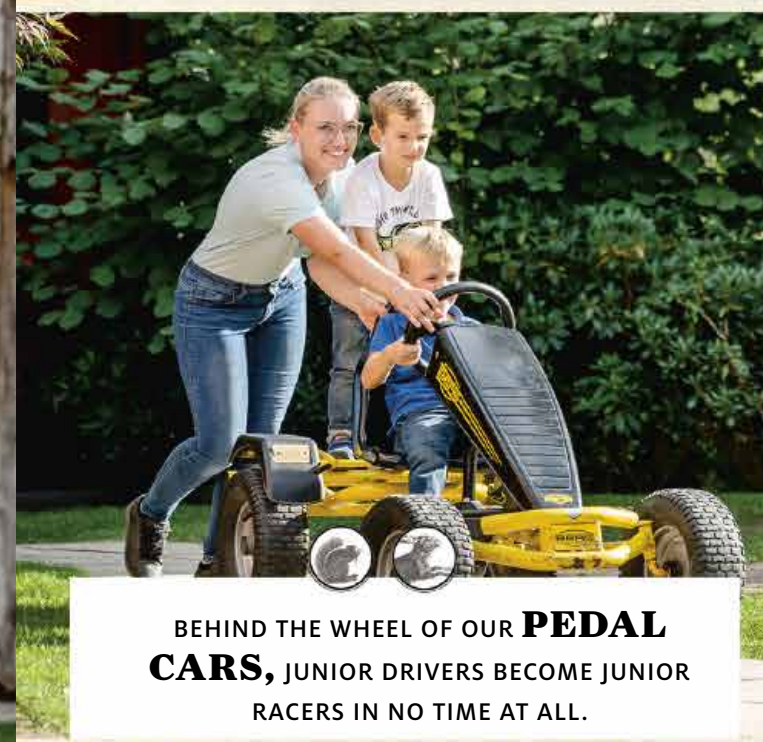

We meet up on our tennis courts to play basketball, longball, dodgeball, football tennis, sock golf, badminton, and many other fun games. It's great fun for everyone because there are no complicated rules and anyone can join in. And when it rains? We let off steam in other ways in Villa Kunterbunt or Villa Sternenstaub, or meet in the House of Games and get out our toolbox or paper and paintbrushes.

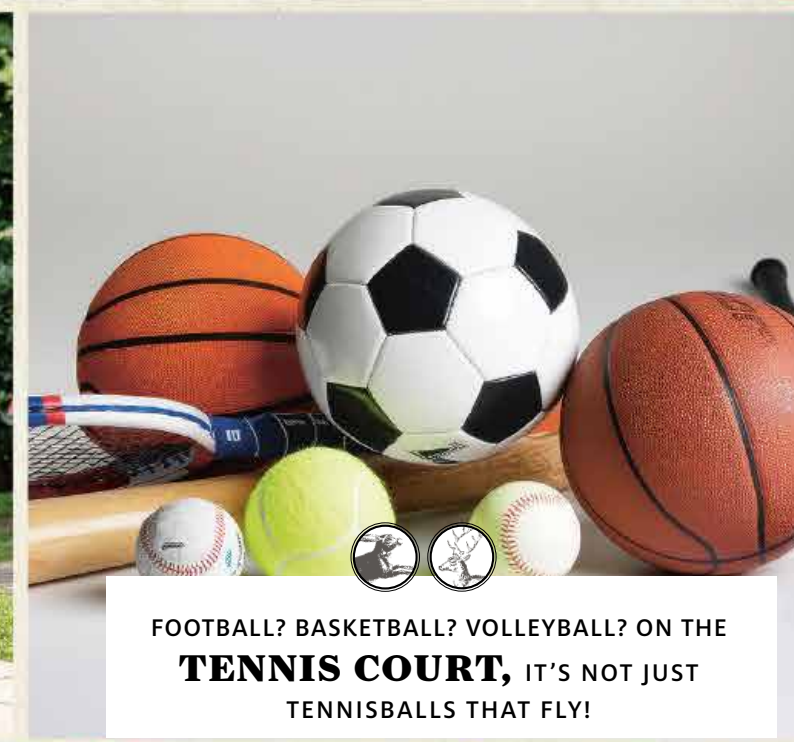

FANCY TAKING PART IN OUR **VIKING CHESS TOURNAMENT** IN THE BAREISS FOREST PARK?

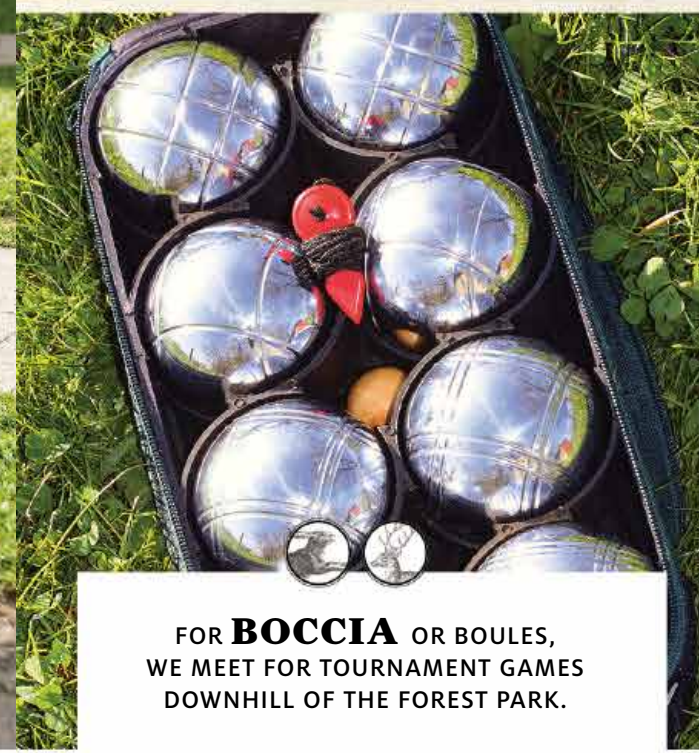

YOU CAN KEEP THE **TABLETOP FOOTBALL** UNIT INSTALLED IN THE HOUSE OF GAMES ROTATING WHEN-EVER YOU LIKE AND WHEN THERE IS A TOURNAMENT MATCH.

BEHIND THE WHEEL OF OUR **PEDAL CARS**, JUNIOR DRIVERS BECOME JUNIOR RACERS IN NO TIME AT ALL.

FOOTBALL? BASKETBALL? VOLLEYBALL? ON THE **TENNIS COURT**, IT'S NOT JUST TENNISBALLS THAT FLY!

FOR **BOCCIA** OR BOULES, WE MEET FOR TOURNAMENT GAMES DOWNHILL OF THE FOREST PARK.

THE **MERRY-GO-ROUND** IN FRONT OF THE VILLA KUNTERBUNT COMES FROM A REAL FAIRGROUND - NOW IT'S DOING THE ROUNDS WITH US.

### TABLE TENNIS

Singles, doubles, or round-robin, sidespin, topspin, backhand – in table tennis at the House of Games, you set the rules and decide how many rounds are necessary to win. But before the ball bounces in the opponent's court, it can only touch the net or the edge.

### TIME TO PLAY

At the Villa Kunterbunt we reinvent a new world every day. We build Lego cities, castles, and labyrinths, steer racing cars, operate excavators and railways, keep marbles and balls rolling, and sometimes we leave no stone standing either. Of course, we also have a corner for puppet mothers to play with their children.

### BALL PIT

Taking a full bath in colourful balls is an exuberant and extremely cheerful pleasure, as we pluck fruit, dive for fish or sort the colours. This is good training for your body awareness, sense of balance and aim while caressing everyone with a gentle massage effect.

### BILLIARDS

Small matches are regularly held at the billiard table in the House of Games as part of the programme. However, it is also possible to arrange a spontaneous party at any time. Just don't forget – the black 8 is not a souvenir to take home!

### GAMING ROOM

In the House of Games, you can take on challenges in the virtual world, improve your high score, and show your brilliance and steal the show with your quick reactions. Or join others to first learn the ropes. Playstation 5, Xbox or Wii? Which is the console that makes you number one?

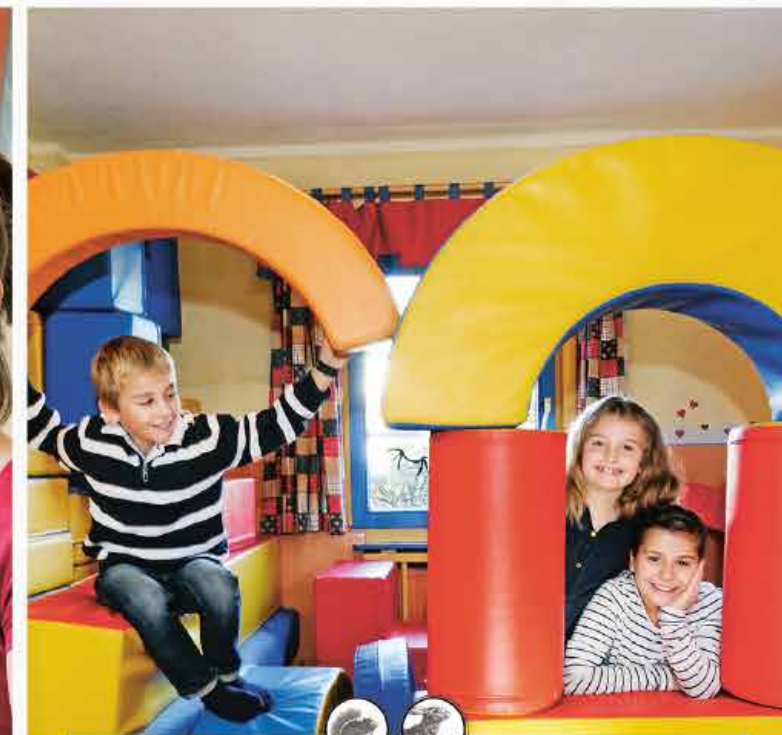

### TEIFOC STONES

Build your own dream house, a farm, or a hotel using real burnt bricks and mortar. Teifoc stones provide a wide variety of forms and construction elements; this takes dexterity on your part and will help you become a creative architect or model maker.

### GAME COLLECTION

Monopoly, The Settlers of Catan, Uno, Yahtzee – if you like playing with dice, cards or knowledge, you could spend weeks unearthing all our treasures. Whether it's a classic or a newly published game, the most important rule is: play and take it easy if you lose.

### PILLOW ROOM

Whenever rain or snow is falling or a storm is blowing outside, we retreat into the flying pillow room to have fun as we merrily jump around and lough until our bellies ache, blow feathers through the air or build fabulous caves, castles and cuddling tents made of blankets, clothes and many other objects.

Painting and handicrafts are a great way to make your ideas sparkle and get rid of boredom and grumpiness on a grey and rainy day. Do you have a vivid imagination? Do you like to be creative? Do you love brush painting? So the kids' programme we offer in the Children's Village will open a lucky bag for you which will never be exhausted. You can design toys, wonderful jewellery and gifts, making the world a more colourful and beautiful place every day.

Time to cool off?

HERE'S EVEN MORE WATER IN THE WATER PLAYGROUND!

On hot days nothing beats chilling out by the pool. Make yourself comfortable in your spot in the sun, or swing gently to and fro in a hanging lounger, or retreat to the shade in a deck chair with your favourite book. To cool off, you can choose between the seawater pool, freshwater outdoor pool or natural bathing pond. Or bring the temperature down with a refreshing ice cream at the pool bistro.

A holiday here is the perfect opportunity to learn to swim or earn a new swimming badge – you can practise every day. The »seahorse« is the entry-level test for beginners, »Pirate Pimpi« and »Buccaneer« are the ideal tests for advanced swimmers before they move onto free swimming. And one thing is for sure: there will definitely be a party, because our pool parties are legendary.

# Relax and chill

## in the Bareiss Beauty & Spa

The Bareiss Beauty & Spa is the ultimate place to relax; everything revolves around your well-being here.

Who knows what the secret is, but it seems like time slows down here. You can start to breath out and float. Maybe you are already familiar with the relaxing sensation of having your back rubbed from home; this kind of touch feels good because it gets under your skin and has an incredibly calming effect.

Imagine that you are also wrapped up in a cosy, soft blanket, surrounded by fine fragrances and accompanied by soft music. You feel like you are being carried by clouds. Breathe deeply into your stomach and close your eyes. Notice how your thoughts come to rest and the aromas of the finest essential oils or of sweet chocolate tickle your nose. A cosy warmth spreads throughout your body and flows through you. Chocolate? Yes, because chocolate not only takes care of your sweet tooth, it also cares for your skin.

# JOIN THE VILLA KUNTERBUNT TEAM TO EXPLORE THE BLACK FOREST JUNGLE

As we love the feeling of freedom and also enjoy physical exercise, we regularly feel tempted to go outside and breathe some fresh air. When the jungle fever gets hold of us, we feel as if crickets were chirping in our heads ready to fly and off we go on tour together. For us, no way is too long, no river is too wide, no treetop is too high.

Everyone who joins the team of Villa Kunterbunt for a tour, can rest assured of one thing: Our backpack is full of ideas, and our forest is full of secrets. Here you can see just a few examples of our most favourite destinations. To see the current weekly programme, please have a look at our web page.

## FOREST RUN

There are good reasons to leave a beaten track, i.e., there are 21 of them to be precise. That's the number of stations you will find on the »Holzweg« adventure trail at Baiersbronn. At the 50 meter long ball track, we take the marbles out of our backpacks and send them down the valley.

Animals in forests and on meadows

### BLACK REDSTART

The Black Redstart is the »Bird of the Year 2025«, taking over the spot from the Lapwing of 2024. It is active even before dawn and is the first to sing in the morning. The Long-eared Owl and Black Woodpecker took second and third place, followed by the Black Stork and Crane.

### BIRD PRESEVATION

Some birds build the nests outdoors while others prefer moving into a perfect home. Ask one of our nesting box professionals to show you how to build a perfect house for a bird family. If everyone participates, you will have a whole village of them. And, maybe, you will also take home one of them.

WITH FORESTER HERMANN RASTETTER

### TOAD COLLECTION

Why do toads migrate? You can learn the answer to this question and many other things during a walk with Hermann Rastetter, our forester, who is active in campaigns for these amphibians, and likes to tell you something about them.

### BUTTERFLY

Peacock butterfly, swallowtail, brimstone butterfly, small tortoiseshell ... on a nice day, you can see them all. Grab a pair of binoculars and join Achim Klumpp for a butterfly watching hike.

### HUMMINGBIRD HAWK-MOTH

This beautiful moth can be recognised by its flight pattern and the two-part tuft of hair on its abdomen, which resembles the tail feathers of a pigeon. Its hovering mode of flight, similar to that of a hummingbird, has earned it the nickname »Hummingbird Moth«. Interestingly, it is active during the day despite the moth being a nocturnal species.

### STAG BEETLE

This beetle is only 14 to 20 millimetres long, so one might wonder how it got its Latin name, »Typhaeus typhoeus«, referring to a giant with 100 dragon heads from Greek mythology. The English name refers to a stag with »antlers« with which the male beetles defend their nest against rivals.

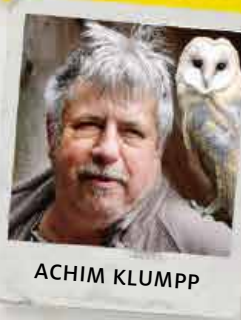

### NATURE DETECTIVE

Are you also asking yourself what the animals are doing in the forest all the time? How do they spend their time, where do they go to sleep, and what are their favourite hiding places? If so, join us for an excursion and find out who is at home between all the trees and shrubs here in the Black Forest.

### SPARROW OWL

The Sparrow Owl is the smallest owl in Europe, measuring around 19 centimetres, making it a true dwarf among its kind. It is native to the Black Forest but is rarely seen due to its very shy nature. However, don't underestimate it: this tiny owl can pose a threat to thrushes.

ACHIM KLUMPP

### FLYING BIRDS

You are fascinated by birds of prey, and admire their acrobatic flight manoeuvres? Do you also know how to identify a buzzard, a red kite and a hawk? If so, you will have a great time with our expert Achim Klumpp, and, with a little luck, he will also take you to a rescue centre if an animal happens to be there for feeding up.

### ADVENTURE IN THE WILDERNESS

If you are interested in plants and animals, or just feel incredibly happy when you roam through woodlands, our Black Forest is the perfect place for you. Light, sounds, smells and just about everything changes as soon as you step into this pristine wilderness. If you keep your eyes, ears and nose open, nature will reward you with fascinating little wonders. If you want to know what it's like underground or high up in the treetops, you should definitely plan a visit to our National Park Centre. A fascinating experience awaits you here, immerse yourself in the forest wilderness and – thanks to computer animation – you can experience what's it like to glide over the national park with a falcon.

# TRAVELLING ON YOUR OWN

In and around Baiersbronn, you have almost endless possibilities for discovering new things all the time. You can go for excursions into the open countryside, go to cultural events or learn about history. Giant vantage points allow views into the distance, to the stars and even into the future. You can explore scientific trails, jump into cold water, and turn big wheels. Fabulous treasures are waiting to be recovered. Just try and find these seven destinations on the map.

## E-BIKE RENTAL

Explore the Black Forest, find new paths, and set your own goals: At the »Bareiss Aktiv« bike station, e-bikes are available for hire (for a fee) for teens and Maxis from 9 years of age. Helmets, water bottles, and paniers are, of course, also provided.

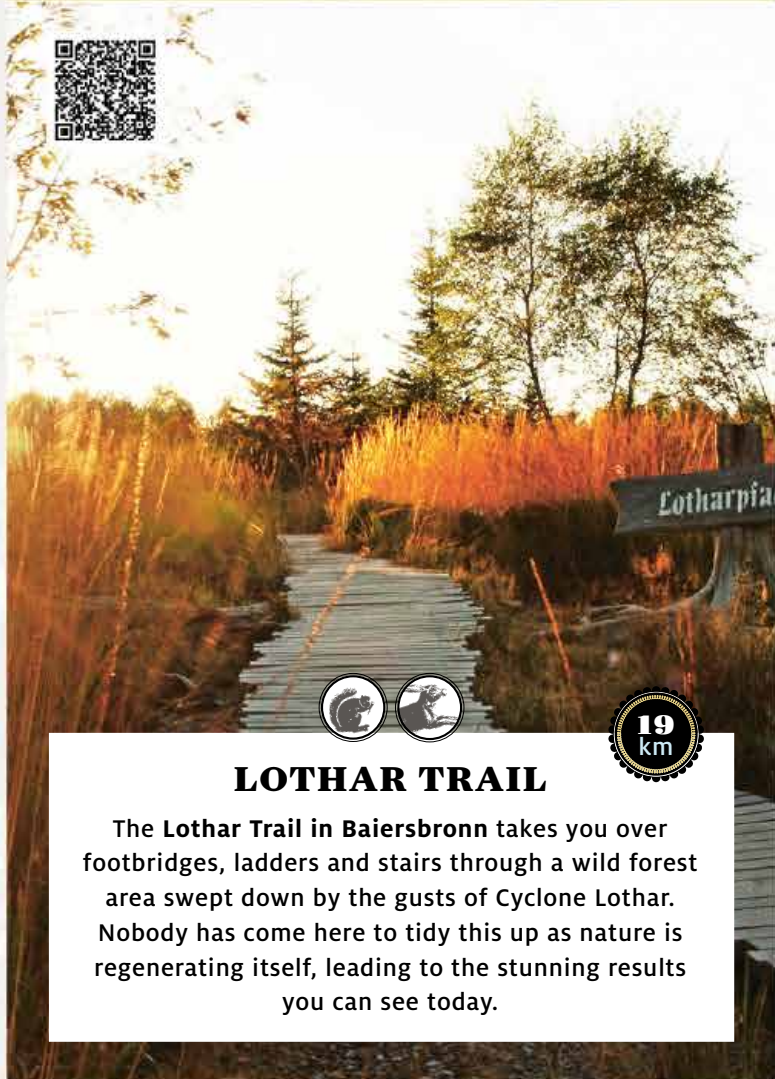

## NATIONAL PARK CENTRE

## »VOGTSBAUERNHÖFE« OPEN-AIR FARM MUSEUM

Making butter, weaving baskets, or binding brush-wood bind, this open-air museum located in Gutach brings back farm life as it used to be 600 years ago as »Menne«, the museum's mascot playfully introduces you to an exciting past. History you can touch, not covered in dust by any means.

## LOTHAR TRAIL

The Lothar Trail in Baiersbronn takes you over footbridges, ladders and stairs through a wild forest area swept down by the gusts of Cyclone Lothar. Nobody has come here to tidy this up as nature is regenerating itself, leading to the stunning results you can see today.

## KAYAK

Ride over rapids in a kayak or rafting boat in the Murgtal Arena in Forbach and overcome the dreaded »kayak roller«, the most turbulent water vortex on this stretch of the river. Anyone who stays dry in the process has clearly cheated. So be sure to carry a towel and spare clothes.

## UNIMOG MUSEUM

## BULLCART

Take a bullcart and use the T-bar lift to go up the steep slope leading to the Mehliskopf/Bühl mountain station before you start your downhill race. These 3 wheeled carts have thick slanted tyres which make for ultimate driving fun and a rising pulse. Only flying is more beautiful.

**WHAT DO WE DO IN FRESH SNOW?**

The minis make snow angels, the maxis build snowmen, and the teens team up for a snowball fight.

**HEY YA!**

Gliding through the winter landscape in a horse-drawn sleigh with the Wanke coachman family and their steaming Black Forest sorrels is an experience for the whole family!

*Out into the snow!*

When winter comes and thick snowflakes are falling, nature retreats under white and glittery cotton wool for a while. Giant glass cones grow downward from roofs, ice flowers appear on windows and frosty pearl necklaces wind themselves around the trees. This is really gorgeous to look at and also makes for blissful pleasures. Have you ever made a hike walking on snowshoes or built an igloo? A cup of hot chocolate is waiting to warm you up.

interested in learning about the ski lifts located at Ruhestein and at Seibelseckle along the Black Forest High Road. These are our regional hotspots for skiers and snowboarders. These areas are really suitable for everyone and allow you to make downhill runs on levels of difficulty which vary considerably. But you can also take your toboggan by the horns and bomb down the track to have real fun. Take care and avoid losing speed or tipping over which is not exactly as easy as it might look. But, once you get the hang of it, all you need is a free track and: Yippee, off you go!

**FUN THE SLOPES**

The ski lifts located at Ruhestein and at Seibelseckle along the Black Forest High Road are our regional hotspots and recommendations for skiers and snowboarders.

**TOBOGGANING**

Take a toboggan by its bent horns and head down the toboggan runs: Make way, we are coming!

**CROSS-COUNTRY SKIING**

You can find the nearest cross-country trail at Buhlbach which is only 6 km away from the hotel, and the cross-country skiing area situated around Mount Kniebis near Freudenstadt is also close at hand. Booorring? Anything but – there's even a lighted night-time trail.

# YOUR *culinary* holiday

Of course, we haven't reinvented indulgence, but we have created a culinary holiday that is unique to us. Our feasts spoil you with everything you could wish for throughout the day. And that's not all:

in addition to the hotel guest restaurants, we have our own children's kitchen with a 7-star restaurant in the Villa Sternenstaub. Here the kids eat, bake and cook together.

## YOUR 7-STAR RESTAURANT

DURING THE HOLIDAY PERIODS YOU CAN DECIDE EACH EVENING WHETHER YOU WOULD PREFER EITHER A DELICIOUS PLATED MEAL HERE AT THE VILLA STERNENSTAUB OR TO EAT AT THE CHILDREN'S BUFFET IN THE HOTEL GUEST RESTAURANTS.

We'll roll up our sleeves and get to work, bring pots and pans to life, and divide up the tasks just like in a professional kitchen. The Bareiss master chefs will open their treasure chests and share their best tricks with you. There'll be bubbling and sizzling, foaming, steaming, and hissing – and when the big moment arrives, we'll all sit down together to enjoy the feast. At Easter, we bake chocolate bunnies; at Halloween, we carve grinning pumpkin faces; and at Christmas, we dust gingerbread houses with icing sugar snow fall. But that's just one of many experiences waiting for you, because you're staying at our hotel, and we love to spoil you. Every day you can choose your favourite dish or pick something from the menu to suit your mood – because it's all available to you, in addition to the children's buffet. Spaghetti or pizza? Risotto or schnitzel? What would you prefer? Get ready to explore and be deliciously surprised!
